Coty Rothery

Senior Software Engineer

Raleigh, North Carolina | coty@fluidmind.dev

https://github.com/coty91 | https://www.linkedin.com/in/cotyrothery/

PROFILE

I’m Coty, a senior software engineer specializing in Go, backend systems, and reliable cloud infrastructure. I bring a calm, collaborative approach to complex engineering challenges.

TECHNICAL SKILLS

Languages: Go, Ruby, Python, Rust, C, JavaScript, PHP, SQL, HTML, CSS, ColdFusion

Frameworks & platforms: ExpressionEngine, Contentstack, Salsify

Databases: PostgreSQL, Redshift, Redis, SQL, Database migrations

Cloud & infrastructure: AWS, AWS Lambda, Kafka, Terraform, NATS

Development practices: CI/CD, RFCs, Observability, Performance optimization

EXPERIENCE

Roadie — Senior Software Engineer

Apr 2024 – Present | Atlanta, Georgia

- Overhauled Proposition 22 compliance, saving millions of dollars annually.
- Work with Ruby, Go, Python, PostgreSQL, Redshift, Kafka, Redis, and AWS.

May Mobility — Senior Software Engineer

Nov 2022 – Feb 2024 | Ann Arbor, Michigan

- Designed and implemented a vehicle-to-cloud event detection system with Rust and NATS for real-time fleet monitoring and diagnostics.
- Reworked the event and log ingestion pipeline, reducing incident resolution times by 35%.
- Introduced an engineering RFC process and implemented CI/CD and Terraform infrastructure, reducing deployment times by 50%.
- Triaged event-pipeline issues affecting support engineers in the field.

StockX — Senior Software Engineer

Jan 2021 – Nov 2022 | Detroit, Michigan

- Designed integrations with Salsify and Contentstack to improve product management and rich product descriptions.
- Reduced internal order-search response times from minutes to milliseconds through caching and performance optimization.
- Refactored product-information services to increase capacity from 100,000 to 10 million burst requests per minute.
- Led catalog-service refactors to improve reliability, observability, and performance; served on the interview council.

StockX — Software Engineer

Oct 2017 – Jan 2021 | Detroit, Michigan

The University of Georgia — Software Engineer

Mar 2016 – Oct 2017 | Athens, Georgia

- Delivered inventory tracking, patent-record management, and accounting features.
- Refactored business-critical components, improving performance by 2–100 times.
- Mentored new engineers and supported onboarding and knowledge transfer.

The University of Georgia — Web Developer

Feb 2013 – Mar 2016 | Athens, Georgia

- Built responsive HTML, CSS, and JavaScript templates and integrated custom designs into ExpressionEngine.
- Developed PHP applications and database migration scripts for plugin-intensive ExpressionEngine installations.
- Partnered with server and network teams to test and deploy new functionality.

Athens Technical College — Web Developer

Jul 2011 – Jan 2013 | Athens, Georgia

- Built accessible website and intranet templates using ColdFusion, SQL, HTML, CSS, and JavaScript.
- Developed departmental web components, interactive features, and reports.
- Maintained servers and monitored web-service performance and availability.

EDUCATION

Computer Science coursework

Southern New Hampshire University | Studies paused

AS, Computer Support Specialist

Athens Technical College | 2010 – 2012
